DETAILED ACTION

Applicants' arguments, filed 06/19/2008, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 103

Claims 1-7, 9-20, 22-26 were rejected under 35 U.S.C. 103(a) as being unpatentable over US 2002/0107330 in view of US 2003/0236514. ***This rejection is maintained.***

Claims 8 was rejected under 35 U.S.C. 103(a) as being unpatentable over US 2002/0107330 and US 2003/0236514, the combination taken further in view of WO 2000/061203. ***This rejection is maintained.***

Claims 27 was rejected under 35 U.S.C. 103(a) as being unpatentable over US 2002/0107330 and US 2003/0236514, the combination taken further in view of USP 5,837,313. ***This rejection is maintained.***

Art Unit: 1612

Applicant asserts that the rejections made using the '330 reference have been overcome because applicant states that the invention of the '330 reference and the present application were commonly owned or subject to an obligation of assignment to the same entity at the time the invention of the present application was made. However, the '330 reference additionally qualifies as prior art under of 35 U.S.C. 102(a), and therefore is not disqualified as prior art under 35 U.S.C. 103(c). The examiner acknowledges that the prior office action states that the reference is available only under 102(e), however, the examiner now asserts that **the reference is also available under 35 USC § 102(a)** and that making a statement that the reference and the current application were commonly owned or subject to an obligation of assignment is not enough to disqualify the reference as prior art.

Conclusion

No claims are allowed.
